BEATBOX ANTHOLOGY

End User License Agreement (EULA)

Do not use this product until the following license agreement is understood and accepted. By using this product, or allowing anyone else to do so, you are accepting this agreement.

BeatBox Anthology (henceforth 'the Product') is licensed to you as the end user. Please read this Agreement carefully. You cannot transfer ownership of these Sounds and Software they contain. You cannot re-sell or copy the Product.

LICENSE AND PROTECTION

1. License Grant
UVI grants to you, subject to the following terms and conditions, a non-exclusive, non-transferable right to use each authorized copy of the Product.

The product is the property of UVI and is licensed to you only for use as part of a musical performance, live or recorded. This license expressly forbids resale or other distribution of the sounds and software included in the Product or their derivatives, either as they exist on disc, reformatted for use in another digital sampler, or mixed, combined, filtered, resynthesized or otherwise edited, for use as sounds, multi-sounds, samples, multi-samples, wavetables, programs or patches in a sampler, microchip or any hardware or software sample playback device.

You cannot sell the Product content or give it away for use by others in their sampling or sample playback devices. In the event UVI terminates this agreement due to your breach, you agree to return the original and all other copies of the software and documentation to UVI.

UVI reserves all rights not expressly granted to herein.

2. Protection of Software
You agree to take all reasonable steps to protect the product and any accompanying documentation from unauthorized copying or use. You agree not to modify the product to circumvent any method or means adopted or implemented by UVI to protect against or discourage the unlicensed use of copying of the Product.

3. Ownership
As between you and UVI, ownership of, and title to, the enclosed digitally recorded sounds (including any copies) are held by UVI. Copies are provided to you only to enable you to exercise your rights under the license.

4. Term
This agreement is effective from the date you open this package, and will remain in full force until termination. This agreement will terminate if you break any of the terms or conditions of this agreement. Upon termination you agree to destroy and return to UVI all copies of this product and accompanying documentation.

5. Restrictions
Except as expressly authorized in this agreement, you may not rent, sell, lease, sub-license, distribute, transfer, copy, reproduce, display, modify or time share the enclosed product or documentation.

BEATBOX ANTHOLOGY

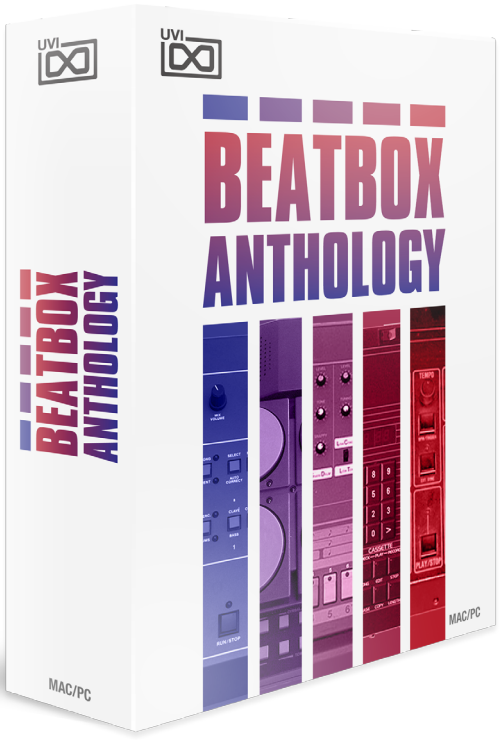
Introduction



Beatbox Anthology

The first drum machines were manufactured in the 1960's, designed to imitate the sounds of drums and percussion instruments. These drum machines utilized analog synthesis and typically offered few options for customizing their sound. In the 80's drum machines used low resolution digital samples - these quickly became popular and were used pervasively throughout pop music and the growing hip-hop movement. In the 90's, with the continuing development of technology, sound quality greatly improved. Drum machines became increasingly capable but conversely, as their specifications improved, they began to lose some of the character that made their predecessors so unique.

With Beat Box Anthology UVI set out to capture a full spectrum of original machines - allowing you to instantly call up the analog classics or newer digital models. Including cult machines like the Roland 808 and 909 to lesser known and rare models that saw very small production runs, your library will boast a diversity of sounds and characters.

Each of the 80 machines we approached were sampled at 24 bit / 96 kHz using high-end DI boxes and ADCs to attain the best sound quality possible. In addition to precise sound captures, the entire library of over 10,000 samples were individually mastered by Chris Gerhinger at Sterling Sound, resulting in an immediate, punchy, world-class sound.

BEATBOX ANTHOLOGY

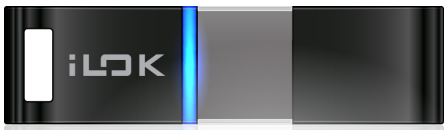
System Requirements

Compatibility
Audio Units, VST, MAS, AAX, RTAS or standalone
UVI Workstation 2.5.2 or higher

Minimum System Requirements
- Intel CPU
- 4 GB of RAM (8 GB+ recommended)
- 2.8 GB of disk space
- Mac OS X 10.7 or higher
- iLok account (free, dongle not required)

Compatibility
VST, AAX, RTAS or standalone
UVI Workstation 2.5.2 or higher

Minimum System Requirements
- Core Duo or faster
- 4 GB of RAM (8 GB+ recommended)
- 2.8 GB of disk space
- Windows 7 or higher
- iLok account (free, dongle not required)



Authorize the Way You Want

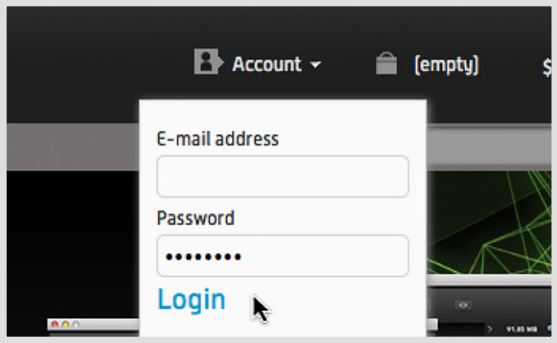
Your license allows 3 concurrent authorizations on any combination of computers and iLok dongles.
License management is a simple drag-and-drop process done through iLok License Manager.
Visit ilok.com/ to download iLok License Manager and create your free account.

BEATBOX ANTHOLOGY

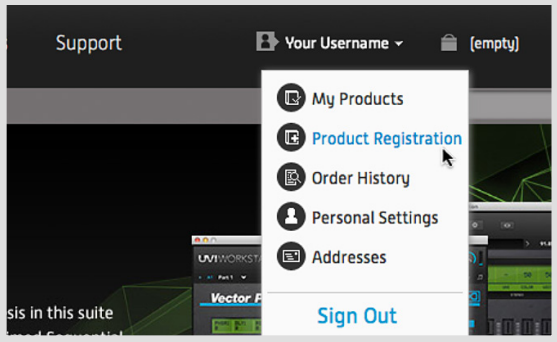
Step 1 Register Your Serial Number

- You must have an account on uvi.net/ and ilok.com/ prior to registration
- If you purchased a **physical version** of this product, your serial number is located on the inside of the box
- If you purchased an **electronic version** of this product, your serial number will be included in a confirmation email
- You can see a list of the products you've registered and their serial numbers anytime at uvi.net/my-products

1. Login to your account on uvi.net/

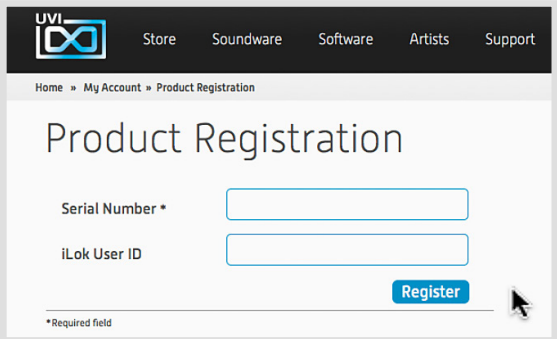


2. Navigate to the 'Product Registration' page



3. Enter your details and click 'Register'

   Upon completion a new license will be deposited in your iLok account

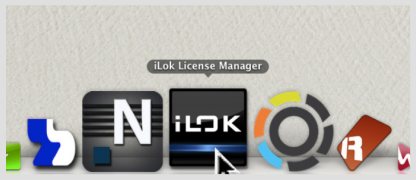


BEATBOX ANTHOLOGY

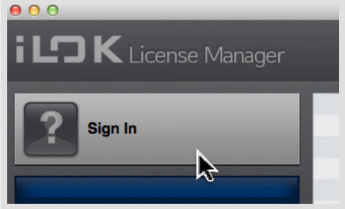
Step 2 Activate Your License

- iLok License Manager is required for activation, download the newest version at ilok.com/ilm.html
- Your license allows up to 3 concurrent activations on any combination of iLok dongles and computers
- Activations can be moved between devices at anytime

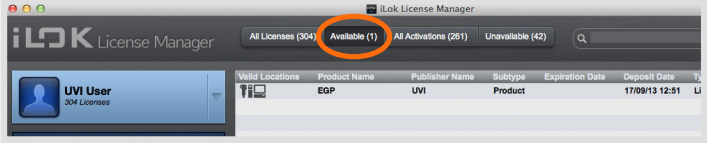
1. Launch iLok License Manager



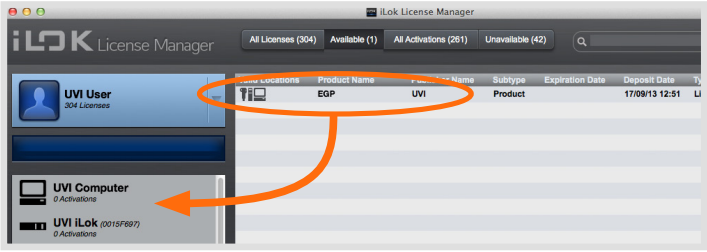
2. Login to your account



3. Click the 'Available' tab

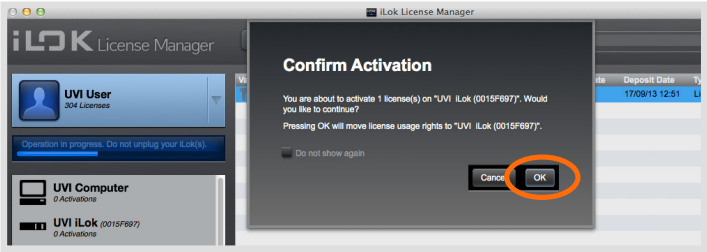


4. Drag the license to your computer or an iLok dongle



5. Click 'Ok' to confirm the activation

   The process is complete, your device is now authorized



iLok License Manager

0 Activations

» To see how many authorizations you have left simply select the license and click 'Show Details'
» To deactivate your license, right-click it and select 'Deactivate' — doing so will return your license to the 'Available' tab

BEATBOX ANTHOLOGY

Step 3 Install Your Instrument

- UVI Instruments can be stored anywhere on your system
- Storing your instruments on a fast drive will improve performance
- Your instruments can be downloaded at any time from uvi.net/my-products

1. Create a folder on your computer and place your UVI Instruments in it
   Once this is done we need to tell UVI Workstation where to find your instruments.
   We do this by creating a watch folder, follow the steps below to create your own:

2. Open UVI Workstation

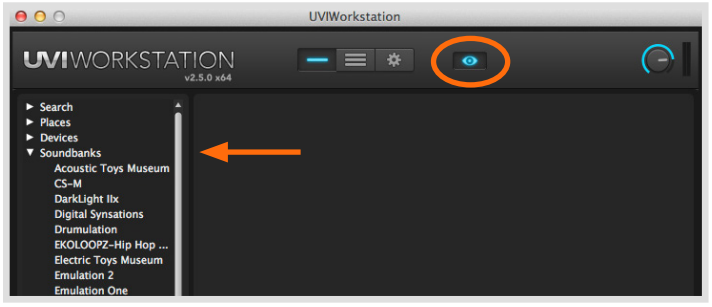
3. Click the Settings page

4. Click the 'Sound Banks' tab

5. Click the '...' button and select the folder where you've placed your instruments

6. Restart UVI Workstation and open the Browser

   Your instruments will be available under the 'Soundbanks' tab



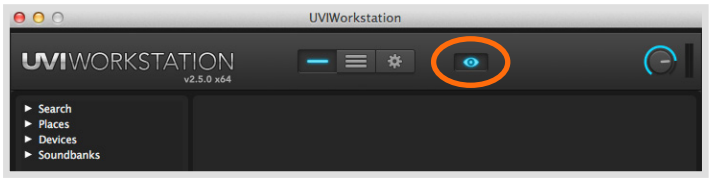
BEATBOX ANTHOLOGY

Step 4 Load Your Instrument

- UVI Workstation is required to run UVI Instruments
- The newest version of UVI Workstation can be downloaded free at uvi.net/downloads
- UVI Workstation can be run as a standalone program or as a virtual instrument from within your DAW of choice

1. Open UVI Workstation

2. Click the Browser icon



3. Open the Sound Banks tab

4. Select a product, in this example we'll choose Vector Pro, then select an instrument and patch

   Double-click the patch to load it

5. The UI appears and you're ready to jam!

UVI Workstation: Tips + Tricks

MIDI Learn

Most UVI Workstation parameters can be automated via. a convenient MIDI Learn. MIDI Learn allows you to bind a physical MIDI controller to specific parameters within UVI Workstation.

- Any FX tab parameter, Macro Knob or Slider in UVI instruments can use the MIDI Learn feature
- The MIDI controller type and the MIDI Channel assignment will be saved with the multi or with your song in the host sequencer
- Automation is assigned per-part

To use MIDI Learn:
1. Right-click the parameter in UVI Workstation that you want to automate
2. After the MIDI Learn dialog appears, Trigger the desired MIDI input controller (knob, fader etc.)

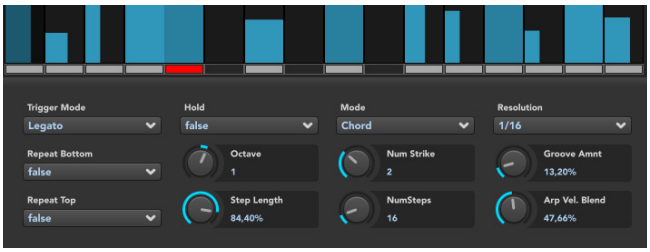
To remove a MIDI controller assignment:
Right-click the desired parameter and press “Delete”

Unlimited FX

UVI Workstation offers a wide variety of FX, or effect processors, to cover all your audio processing needs. The FX implementation is robust and includes the ability to insert unlimited FX slots in several stages of the signal flow.

- Click the “FX” tab to open the FX page on the Single view
- In Multi view the FX section is always displayed

Arpeggiator

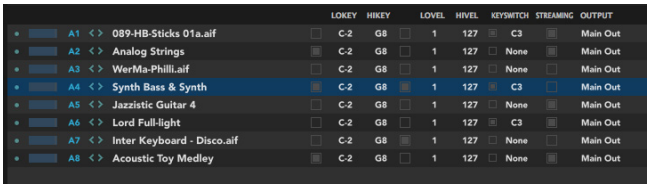


UVI Workstation comes equipped with a robust arpeggiator. To insert an arpeggiator in a part, you need to display the Single view in the UVI Workstation, then click on the note icon. The arpeggiator can be employed as a pattern gate, arpeggiator, or even an advanced rhythmic processor for your live MIDI performance or sequenced MIDI tracks. Arpeggiators can be inserted in an unlimited number of parts.

Preset Stacking

Thanks to the simplicity of the UVI Workstation you can stack as many preset as you want by simply assign multiple part on the same MIDI channel.

Split, Velocity & Key Switch



The Keyswitch settings allow you to load multiple presets into two or more parts and dynamically play and mute them from your MIDI controller using key switching, note range, velocity range or any combination of the three parameters. This powerful feature gives you a great deal of real-time control.

Scroll Wheel

All knobs can be adjusted with the scroll wheel on your mouse. When you double-click on any knob or slider, you can manually enter or type in the desired value.
